

Product Descriptions

100 Words

AutoCAD® MEP software is the discipline-specific version of AutoCAD® software for mechanical, electrical, and plumbing (MEP) designers and drafters. The software's intuitive systems and design tools provide greater drafting productivity with the flexibility to make last-minute design changes more quickly and easily. AutoCAD MEP automates tedious drafting tasks, enabling designers and drafters to create more accurate construction documentation, faster. Sharing, collaborating, and coordinating with architects, structural engineers, and contractors is easier using the software's widely used authentic, reliable DWG™ technology.
